

These are the further learning pathways graduates can follow to achieve the educational base for chartered (CEng) and incorporated (IEng) engineer level.

To enter a CEng pathway – Graduates need an accredited BEng/BSc (Hons) degree, or an academic qualification assessed as being equivalent to a UK honours degree.

To enter an IEng pathway – Graduates need an approved HND or Foundation Degree (or an academic qualification assessed as being equivalent to a UK HND).

You can find a list of accredited and approved programmes of study and further guidance on further learning on the [JBM website](#).

If your qualification has not been accredited, you will need to get it assessed by your chosen professional institution. You can find out more about this process on your Institution's website (ICE, IStructE, CIHT or IHE).

Work-based further learning pathways

Academic Routes leading to IEng or CEng as appropriate

Employer-managed further learning	Experiential Learning	Technical Report Route	Technical or non-technical work-based BSc/MSc or EngD programmes	Technical or non-technical master's degree	Technical MSc	Conversion MSc programmes	Graduates with a non-accredited bachelor's degree in civil engineering	IEng bachelor's degree
<p>Provided by employers and run in parallel with their structured IPD training scheme.</p> <p>A list of approved employer-managed further learning programmes is on the JBM website.</p> <p>Supporting guidance:</p> <ul style="list-style-type: none"> - FLJBM05 Employer Managed work-based FL programmes for completion of the educational base for IEng/CEng - FLJBM19 Guidance for supervising engineers, assessors and verifiers - FLJBM16 Monitoring / Audit visit checklist. - FLJBM11 Guidance for Employers – JBM Audit Visit - FLJBM12 Guidance for Employers – JBM Monitoring Visit 	<p>The candidate plans and manages their own learning.</p> <p>This can be done alongside a structured IPD training programme.</p> <p>This route is operated separately by the four JBM member Institutions (ICE, IStructE, CIHT and IHE).</p> <p>For detailed guidance please refer to the website of your chosen Professional Institution.</p>	<p>Allows candidates to use their work experience to make up for a lack of formal academic qualifications at the appropriate level.</p> <p>This route is operated separately by the four JBM member Institutions (ICE, IStructE, CIHT and IHE).</p> <p>For detailed guidance please refer to the website of your chosen Professional Institution.</p>	<p>For holders of CEng or IEng-level accredited bachelor's degrees, approved foundation degrees or HND awards.</p> <p>A range of courses are available - notably the Gateway's BSc/MSc programmes, supported by the Engineering Council.</p> <p>They combine work-based learning and professional experience and are linked to the attribute requirements for CEng or IEng registration.</p> <p>You can find a list of accredited EngD programmes on the JBM website.</p>	<p>Recommended if you hold a CEng-level accredited bachelor's degree.</p> <p>Full-time, part-time or distance learning courses are available.</p> <p>The JBM website includes:</p> <ul style="list-style-type: none"> - A list of accredited programmes - FLJBM01 Introduction to FL with guidance on academic routes - FLJBM09a Requirements for MScs - FLJBM09b Guidelines for MScs <p>If the master's degree is not accredited graduates may need to apply for an academic assessment.
