List of Accredited Degree/Graduate Apprenticeship Programmes

The Degree Apprenticeship (DA) or Graduate Apprenticeship (GA) is designed to provide the underpinning knowledge (K) for an apprenticeship standard which can be at Level 6 or 7. The degree structure will either be Non-Integrated or Integrated as defined by the Institute for Apprenticeships and Technical Education (IfATE) but the content must map to the JBM and Engineering Council degree guidelines.

For more information on the apprenticeship standard please refer to the following websites:

For English apprentices, [Institute for Apprenticeships website](#)

For Scottish apprentices, Skills Development Scotland's (SDS) ["Graduate Apprenticeships Framework document for Civil Engineering at SCQF level 10"](#)

The degrees listed below have been accredited by the Joint Board of Moderators (JBM) comprising the Institution of Civil Engineers, Institution of Structural Engineers, Chartered Institution of Highways & Transportation, the Institute of Highway Engineers and the Permanent Way Institution on behalf of the Engineering Council.

Graduates from these programmes will:

1. Fully meet the academic requirement for registration as an Incorporated Engineer (IEng).

Some of the programmes are also accredited as partially meeting the academic requirement for registration as a Chartered Engineer (CEng). These are specified as 'CEng with FL' in the 'Accredited for' section. FL stands for Further Learning.

Candidates must hold a masters or doctorate accredited as Further Learning for CEng to hold accredited qualifications for CEng registration.

Mode of Course

FT = Full Time

PT = Part Time

S = Sandwich

Degrees are only accredited at Third Class Honours and above.
