List of Accredited Integrated Masters Degrees

The Integrated Masters (MEng) degrees listed below have been accredited by the Joint Board of Moderators (JBM) comprising the Institution of Civil Engineers, Institution of Structural Engineers, Chartered Institution of Highways & Transportation, the Institute of Highway Engineers and the Permanent Way Institution on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer (CEng)

Mode of Course

DL = Distance Learning

FT = Full Time

PT = Part Time

S = Sandwich

The years shown in the listings are the inclusive intake periods for which these courses are accredited.

Please note that in some cases, accreditation beyond 2022 might be pending. Please contact the JBM Secretariat at jbm@ice.org.uk for further information. ^{1 2}

Graduates with an accredited MEng degree will also fully satisfy the educational base for an Incorporated Engineer (IEng).

¹ Where an intake year has not been extended, this will usually be because the University no longer offers civil engineering courses

² Accreditation periods since 1999 are shown below. Historical data on all accreditation activities is held at the ICE, IStructE, IHE, CIHT and PWI and you should contact the Institutions directly if you have any queries.
